March 6 - Or Live Or Die, a play. At 8:30 pm. VA bldg., room 114, 1395 Dorchester West. Or Live Or Die, performed by Stephen Gee Lind, is divided into three sections, consisting of short scenes. The first section, Birth and Childhood, evokes the pain and wonder of a child's growing awareness of herself and the world around. There is no single character developed throughout the piece, but in Life, the second section, the themes and concerns are those of gay men in the 1980s. So there is for instance an openly gay teacher facing harrasment at school in dealing with the coming out of a gay pupil. There is the gay man and his friend facing the pain of an AIDS diagnosis, and the two lovers finding a way through the pressures of jealousy and racism. Three death scenes conclude the piece.

The Bögge News (Concordia Engineering Students Hate Rag) recently surfaced again at the University, urging it's readership to "WATCH FOR FAG NIGHT", a reference to LGFC's upcoming dance. Obviously these neanderthal, homophobic pigs have no conception of womyn-identified-womyn. Moreover, the section entitled "A SHORT QUIZ ON READING YOUR SECRETARY'S BREASTS" makes abundantly clear the Bögge's rabid misogyny. As always the authors have graciously remained anonymous, underscoring their own spineless position. The LGFC collective would just love to meet up with these fascistic, sexist brats if only they would come out from under their slimy rock ...

Our office hours have again resumed, and we welcome you all to drop by. If anyone's interested, and has a spare moment or two, we can always use more staffers!

A video documentary about Montreal gay fathers is being produced by a Concordia cinema student. The video will discuss discrimination against Gay fathers in custody cases, adoption procedures, and in terms of their personal freedom. If you are interested in participating directly or helping out on the production, please call Anita at 842-5135 or Fernand at 522-4729.

Recently a letter headlined Give Back the Happy Words was printed on the editorial page of the Gazette. One "C. Morton" of Beaconsfield(urggh!) urged the "homosexual community" to return the word gay to its original meaning. Sorry Charlie but we're quite happy with our identity and identifying terms. We encourage you to find some joy of your own, which "non-homosexuals" seem to suffer a lack of. Our language is our voice, and as Lesbians and Gay Men our voices must and will be heard!
